Preferred fee unit trust

You may choose to have your annual administration and annual financial adviser fees deducted from your Allan Gray Money Market Fund. This will be known as your preferred fee unit trust.

Do you require a preferred fee unit trust? Yes No

If the preferred fee unit trust does not have sufficient funds to pay fees, the Administrator will:

1. Deduct fees from the unit trust(s) where the fees have accrued,
2. If there is an insufficient balance in that unit trust the Administrator will deduct fees proportionately from the remaining unit trusts with balances.

1. Please contact the Allan Gray Service Centre on 0860 000 654 for further information about any constraints that may currently apply.
 2. To the extent that the total expenses exceed the income earned in the form of dividends and interest, the funds will not make a distribution.
 3. Compliance with Prudential Investment Guidelines: The Funds are managed to comply with Regulation 28 of the Pension Funds Act (with total foreign exposure limit of 25% as per FSB Circular 6 of 2010). Exposures in excess of the limits will be corrected immediately except where due to market value fluctuations or capital withdrawals in which case they will be corrected within a reasonable time period. Allan Gray Unit Trust Management Limited does not monitor compliance by retirement funds with section 19(4) of the Pension Funds Act (item 9 of Annexure A to Regulation 28).
 4. Compliance with Prudential Investment Guidelines: The Funds are managed to comply with the limits of Annexure A to Regulation 28 of the Pension Funds Act. Exposures in excess of the limits will be corrected immediately except where due to market value fluctuations or capital withdrawals in which case they will be corrected within a reasonable time period. Allan Gray Unit Trust Management Limited does not monitor compliance by retirement funds with section 19(4) of the Pension Funds Act (item 9 of Annexure A to Regulation 28).
 5. The annual investment management fee is calculated on the daily value of the Fund excluding any assets invested in the Orbis funds. Assets invested in the Orbis funds incur a management fee. These, along with other expenses are included in the total expense ratio.
 6. A total expense ratio (TER) of a unit trust is a measure of the unit trust's assets that were relinquished as a payment of services rendered in the management of the unit trust. These total operating expenses are expressed as a percentage of the average value of the unit trust, calculated for the year to the end of December 2010. Included in the TER is the proportion of costs incurred by the performance component, fee at benchmark and other expenses. These are disclosed separately as percentages of the net asset value. Trading costs (including brokerage, VAT, STT, STRATE, levy and insider trading levy) are included in the TER. A high TER will not necessarily imply a poor return nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs. The information provided is applicable to class A funds.
 7. Only available to South African residents.

Collective Investment Schemes (unit trusts) are generally medium- to long-term investments. The value of participatory interest (units) may go down as well as up and past performance is not necessarily a guide to the future. Unit trusts are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request from the company/scheme. Commission and incentives may be paid and if so, would be included in the overall costs. Unit trust prices are calculated on a net asset value basis, which, for money market funds, is the total book value of all assets in the portfolio divided by the number of units in issue. The Allan Gray Money Market Fund aims to maintain a constant price of 100 cents per unit. The total return to the investor is primarily made up of interest received but may also include any gain or loss made on any particular instrument held. In most cases this will have the effect of increasing or decreasing the daily yield, but in some cases, for example in the event of a default on the part of an issuer of any instrument held by the fund, it can have the effect of a capital loss. Such losses will be borne by the Allan Gray Money Market Fund and its investors and in order to maintain a constant price of 100 cents per unit, investors' unit holdings will be reduced to the extent of such losses. Fluctuations or movements in exchange rates may also be the cause of the value of underlying international investments going up or down. Unit trusts are traded at ruling prices. Commissions and incentives may be paid and if so, would be included in the overall costs. Different classes of units apply to the Allan Gray Equity, Balanced, Stable and Optimal Funds only and are subject to different fees and charges. A detailed schedule of fees and charges and maximum commissions is available on request from the company. Forward pricing is used. A fund of funds unit trust may only invest in other unit trusts, which levy their own charges, that could result in a higher fee structure for these portfolios. A feeder fund is a unit trust fund that, apart from assets in liquid form, consists solely of units in a single portfolio of a collective investment scheme. All of the unit trusts except the Allan Gray Money Market Fund may be capped at any time in order for them to be managed in accordance with their mandates. Allan Gray Unit Trust Management Limited is a member of the Association for Savings & Investment SA (ASISA). Allan Gray Limited, an authorised financial services provider, is the appointed investment manager of Allan Gray Unit Trust Management Limited. Allan Gray Unit Trust Management Limited has been approved by the Regulatory Authority of Botswana to market its unit trusts in Botswana, however the Company is not supervised or licensed in Botswana. It is incorporated and registered under the laws of South Africa and is supervised by the Financial Services Board.
